

Introducing The GLOBALLY HARMONIZED SYSTEM

A WORKSHOP ON THE GLOBALLY HARMONIZED SYSTEM FOR CHEMICAL LABELLING AND THE MODEL WSH REGULATIONS

- Tuesday 6 September 2011 — Sydney
- Wednesday 14 September 2011 — Newcastle

Dooleys Club, crn John & Railway Street, Lidcombe
 Hunter Business Chamber, 99 Selwyn Street, Mayfield East

WORKSHOP AGENDA

Registration & coffee — 8:30 am **Start** 8:45 am

- Introduction to international chemical labelling
- Overview of the Draft Model Work Health and Safety Regulations as per chemical storage
- Changes to the risk assessment processes
- Overview of the GHS:
 - Which labeling can be used – DG, GHS, Ag & Vet and others
 - Physical hazards
 - Health Hazards
 - Environmental Hazards
- Overlap with dangerous goods and hazardous substances labeling under the Model WHS Reg.
- Incorporation of GHS into Safety Data Sheets
- Case study workshop — assessment of chemicals under the GHS using the EU and other means to transfer from Hazardous Substances to GHS

Close — 12:45 pm

WORKSHOP—Storage, Handling & Risk Management

The UN's **Globally Harmonised System** for chemical classification and labeling is coming to Australia. This system replaces Hazardous Substances with an entirely new and expanded classification and labelling system which also affects the new Safety Data Sheets.

Safework Australia's draft [Model Work Health & Safety Regulations](#), to be law from January 2012, incorporates the [UN's Global Harmonized System](#) (GHS) for labeling chemicals in workplaces. While not yet in law, Australia is committed to following Europe and New Zealand in legislating GHS for chemical classification and labeling

Suppliers, manufactures, users and importers of chemicals should be aware of these coming changes. Many currently imported chemicals are classed and labeled under the GHS, which can lead to confusion.

This is a practical half-day introductory workshop designed to get supervisors and managers up to speed on the expected changes which can affect regulatory acceptance of your products under regimes operating the GHS. It supplements ASBG's workshop on dangerous goods in providing a broader knowledge of the changes coming in chemical labeling. Knowledge of the model regulation and GHS can also assist you in preparing any submissions to Safework Australia.

PRICE	Subscriber	Non- Subscriber
Workshop	\$235	\$285
Price includes GST, notes and coffee on arrival and morning tea		

Facilitator: Andrew Doig, National Director ASBG who is an excellent facilitator and has a broad background with dangerous goods, its storage and handling and management, leads this Workshop.
