Equip Series: Environmental Workshop Regulation, Reporting and Management

Through the combined resources of

Australian

Sustainable Business Group Sponsored by

ENVIRONMENT MANAGEMENT WORKSHOP

WEDNESDAY 18 APRIL 2012

Are you fully equipped in your environmental management skills? This one day intensive course will provide the tools necessary to identify and understand the issues, liabilities and laws and apply effective and practical solutions for managing them and putting them into practice in your business.

Transparency is the new corporate licence to operate. Companies can no longer tell their stakeholders "trust me", they must be able to show how trust has been earned. To earn that trust means not just to comply with relevant environmental laws, but also about being able to be ahead of the regulatory agenda, whether it is because of your corporate environmental policy, the demands of your stakeholders or those in your supply chain.

This workshop is designed for you to keep up-to-date with the day-to-day issues confronting the environmental manager. Whether you are new to environmental management or have new and additional responsibilities in this area, this workshop has been tailored for you.

Key issues to be explored and discussed at this Workshop include:

- Basic introductory environmental law to protect your organisation from pollution prosecutions, covering pollution laws, Federal greenhouse & environmental laws, planning, due diligence and much more
- Overview of main environmental protection areas: waste, hazardous waste, air, odour, dust, water, storm water, and contaminated site assessment and management options.
- Environmental Authorities how to manage and vary them, how to comply with them
- Beyond compliance issues, how ISO 14001 Environmental Management System works
- Workshop of participants environment risks is also included in this introductory, but intense one-day workshop

Supported by SBA, and to be facilitated by ASBG's National Director, Andrew Doig, and thought leaders from SKM, you will hear and engage with key Government Officials and leading industry professionals on this critical environmental and economic challenge.

Details at a glance

Date:Wednesday 18 April 2012Time:9:00am - 4:30pm; Registration from 8:40am.Venue:SKM Offices, 32 Cordelia Street, South Brisbane.Program:See over

8.15							
8.30	Registration, Te Welcome &Intr					Andrew Do ASBG	ig,
			An introduction	To Environme	ental Laws		
8:35	Setting the scene – An introduction To Environmental Laws Overview of environmental law and policy changes: Featuring Green tape reduction and rev Environmental Authorities and other streamlining initiatives for Queensland.				iew of Omar Ame DERM	Offial Affield,	
9.40	E LAWS: Overview of the scope of Federal and Queensland environmental laws, environmental regulators and the National Greenhouse and Energy Reporting Act and new Clean Energy laws. Pollution control, waste management and contaminated land – Environmental Authorities, pollution offences, waste disposal and transport, director and officer liability, duty to report, significant risk of harm, powers of the EPA and managing contaminated land liabilities in property transactions and leasing.				vs. A leading E law firm	3risbane	
10:30	Morning Coffee
