

Environmental Managers: How to keep up-to-date with your legal compliance obligations

Keeping up-to-date with rapidly changing environmental laws and how they affect your business is a key challenge for corporate environmental managers. The **Australian Sustainable Business Group** and **NCS International** have launched a new initiative to help environmental managers keep abreast of legislative changes through our six-monthly Environmental Law Update seminars.

These focussed half-day seminars provide a cost-effective and efficient way of learning about environmental law developments and ensuring legal risk registers within your ISO 14001 Environmental Management System (EMS) are current. You will learn about key changes and emerging developments in state and federal environmental legislation relevant to environmental aspects and risks of your business operations.

Purpose:

Businesses and organisations looking to design an ISO 14001 EMS must establish, implement and maintain procedures to identify and access legal requirements applicable to their environmental aspects and risks. The Environmental Law Update seminar helps your businesses achieve this.

Who Should Attend?:

Environmental managers and professionals responsible for developing, implementing, maintaining and auditing ISO 14001-compliant EMSs. If you need to ensure your business complies with the range of environmental legislation, this course will give you the knowledge, information and tools to keep your environmental registers up-to-date.

Seminar Content:

Environmental Law Updates:

1. New Incident & Reporting Laws: Immediate Reporting, Incident Management Plans, Publication of Monitoring Data
2. Sydney Water's new pricing and trade waste policy
3. Air: Noise, Monitoring, Clean Air Regulation
4. Waste Laws: Levy Review, Carbon tax impacts, Classification and Resource Recovery Exemptions
5. Conservation: Threatened Species and other new developments

Federal Laws:

1. New carbon laws overview
2. Other related greenhouse: NGER, EEO, RET, Building Energy Efficiency, Off-set Standard
3. EPHC: Air, Used Packaging, National Waste Policy, Product Stewardship, Contaminated Sites

Workshop NSW:

Updating legal registers

Outcomes:

Participants will receive up-to-date summaries of crucial legislative changes and access to template tools that can be readily deployed to update their EMS environmental registers. Certificates of Attendance will be issued to participants to demonstrate compliance with ISO 14001 requirements for keeping up-to-date with current applicable legal requirements.

Costs:

ASBG NCSI Client/Subscriber: **\$260** Non-Subscriber: **\$315**
(Price includes GST)

Date & Venue:

Monday 20th May 2013 at
The Sebel Residence, 37 Victor Street, Chatswood.

Seminar Hosts:

ASBG is an industry group at the forefront of negotiating with government to influence changes to environmental laws affecting industry. ASBG provides a range of practical seminars, workshops and updates on environmental policy and laws for environmental professionals.

NCS International is one of Australia's foremost certification bodies responsible for auditing corporate EMSs and certifying them to ISO 14001. NCS International also provides a range of training courses on implementing ISO 14001 EMSs, ISO 14001 auditing and corporate greenhouse gas accounting.
