

Contaminated Land Conference

A conference to assist landowners and practitioners on current legislation and dealing with the changing landscape of contaminated land management

Brought to you through the combined resources of

Sponsored by

SYDNEY THURSDAY 7 NOVEMBER 2013

Now that the new Assessment of Contaminated Sites NEPM is available, there are the issues on how it is being implemented. In addition, there are many other new developments underway in the management of contaminated land. This conference is specifically aimed at land owners, environmental professionals and others dealing in contaminated land management.

This is the follow up conference from May that will consider the impacts of current NSW legislation and the NEPM changes will have on the management of contaminated land. Learning about NSW's current and proposed legislation and policies and how these also incorporate the NEPM's changes, will assist you in dealing with contaminated land and its liabilities. This conference will cover:

- ✓ A regulator's overview of current laws, policies and proposed changes to the CLM Regulation
- ✓ Development of the National Remediation Framework – developing a document for clean-up criteria
- ✓ Asbestos and its management on contaminated land: impact of the NEPM and waste requirements
- ✓ On-site treatment when immobilisation is required and what is involved
- ✓ Overview of the legal risks of managing contaminated land and transfer liabilities
- ✓ Long term contaminated land management approaches, costs and issues
- ✓ Contaminated soil management options – reuse, landfill, containment and dealing with hazardous soils.
