

Environmental Law & Policy Change Update: Federal, National, NSW, Queensland, Victoria, SA & other States

Keep up to date with your Environmental compliance obligations

This seminar provides a cost-effective and efficient way of learning the latest environmental law changes and emerging issues. What is coming next in terms of environmental regulatory change can have major impact on your business. Be prepared and learn about key changes and emerging developments in state and federal environmental legislation relevant to environmental aspects and risks of your business operations.

Purpose:

Businesses and organisations need keep up to date with new environmental legislation to avoid costly surprises. Also those operating an ISO 14001 EMS must establish, implement and maintain procedures to identify and access legal requirements applicable to their environmental aspects and risks. The Environmental Legislative Update webinar helps your businesses achieve this.

Who Should Attend?

Environmental managers and professionals responsible for national compliance will find this course useful to cover your national obligations. The webinar is scheduled to be viewed live over lunch, so you can eat and learn.
