SYDNEY - 1 AUGUST 2019

This seminar will assist contaminated landowners, environmental professionals based in industry and new entrants to environmental management on recent changes and developments in the contaminated land management.

A number of regulatory and policy changes are arriving with implications including:

- Update on regulator's initiatives for contaminated land management
- Remediation of Land SEPP → what remediation types may require a DA?
- ANZ Guidelines for Fresh and Marine Water Quality 2018 → impacts on pump and treat
- Changes to waste legislation affecting asbestos, recycling of C&D waste and disposal
- Impact of new listed substances on the Stockholm Convention

Also discussed are the ongoing emerging pollutants of PFAS, asbestos and bromated fire retardants and the issues they bring to contaminated land management. This seminar will cover:

- ✓ Changes to the UPSS Regulation and other initiatives
- ✓ Progress of the Remediation of Land SEPP what remediation types may be subject to full development consent requirements
- ✓ A legal review on property transactions and recent court cases
- ✓ Overview on the new Australian and NZ Guidelines for Fresh and Marine Water Quality
- ✓ PFAS management of a large contaminated site lessons learnt
- ✓ The Stockholm Convention listed substances will PBDEs be the next PFAS?
- ✓ Managing contaminated PFAS and asbestos soils under NSW's waste legislation
- ✓ Pump and treat effluent treatment technologies pre-cleaning and meeting discharge criteria
