## 3 x 1 HOUR SESSIONS - ON DEMAND VERSION

This workshop set is designed to help environmental and waste professionals come up to speed on the complex area of waste classification, resource recovery, and its management. NSW environmental laws establish a complex set of legal controls on the generation, transport, re-use, recycling, treatment and disposal of wastes. There are many pitfalls and administrative processes that abound in the management of wastes in NSW. The workshop is run over three consecutive days [3 x 1 hour sessions] plus question time will cover the following areas:

- ✓ Definition of waste → waste is very broadly defined, but how broad?
- ✓ Illegal waste activities: → transport, landfilling and pollution of land offences
- ✓ Overview of the POEO (Waste) Regulation 2014 → Proximity principle, Scheduled waste facilities, immobilisation approvals and other relevant changes
- ✓ Waste licensing requirements under schedule 1 POEO Act
- ✓ Asbestos → classification management and tracking of asbestos wastes
- ✓ Use of Resource Recovery Exemptions and Orders → where they apply and what to do to implement them
- ✓ Use of dangerous goods classifications for hazardous wastes
- ✓ Hazardous Waste classification:
  - ✓ Covering hazardous, restricted, trackable, liquid
  - ✓ Chemical assessment → use of CT, SCC and TCLP tests and where to apply them
  - ✓ Immobilisation → what is it and where to use it and approval processes
- ✓ Waste tracking → waste codes, intra state and interstate and the EPA's on-line system including new requirements for asbestos, tyres and interstate waste movements

This Webinar is recorded and you can download it at any time to view and review it when it best suits your diary.

## **PROGRAM Waste Laws and Introducing Waste Classification** Overview of the waste laws covering: Session 1 Waste definition Waste licensing, waste transport laws, Illegal dumping and land pollution liabilities for generators, transporters and facilities Overview of the POEO (Waste) Regulation 2014 affecting generators and the waste sector ✓ General conditions for transporting and storing wastes ✓ Introduction to classification of waste under the Waste Guidelines → the 6 steps ✓ Classification of putrescible and non putrescible wastes for landfill disposal **Resource Recovery Exemptions and Other Wastes Session 2** ✓ The new Resource Recovery Exemption (RREs) and Orders (RROs): What do they do and how you must use them ✓ Testing, storing, application and other requirements Tips on when and how to apply for specific RRE applications Asbestos Waste ✓ Classification –When is it asbestos waste or asbestos containing material New developments in asbestos waste controls ✓ Overview of the WasteLocate system for tracking asbestos and tyres ✓ Case studies and traps for poor classification, testing, assessment and destination choices **Hazardous Wastes and Immobilisation** Session 3 Classification of trackable wastes under the Waste Regulation → liquid and solid ✓ Liquid wastes and their definition under trackable waste Hazardous wastes and acid sulfate soils and their management and classification covering: o TCLP, CT tests; when to use it and what to test for and how the test works What occurs if you exceed the SCC test thresholds ✓ **Immobilisation**, its use and the new immobilisation Certifications and Approvals **Transportation and Tracking of Trackable Wastes** Examine the **tracking system** for trackable waste ✓ Waste tracking data and on-line waste tracking. ✓ Interstate tracking **Test** Competency Test is an option at \$20 extra emailed after the end of the last session. Those who successfully email back and complete the test will be issued competency certificates. **PRICE** (incl GST) **WEBINAR DATES AND TIME** A Website link will be issued with Over 3 days: Registration with ASBG member password Non-Member \$120 your Email first Require computer with internet Competency test optional On Demand - available at Notes, will be emailed to participants on completion download speed of > 5 Mbs any time and a certificate REGISTER TODAY Click here to register online More information ph 02 9453 3348 fax: 1300 303 816.
