## WEBINAR

### 3 x 1.1 HOUR SESSIONS

This webinar set is designed to help environmental professionals come up to speed on the complex area of waste classification, resource recovery, and its management. Queensland environmental laws establish a complex set of legal controls on contaminated soils, waste generation, transport, re-use, recycling, treatment and disposal of wastes. Webinar is run over three sessions [3 x 1 hour sessions] plus question time will cover the following areas:

- ✓ Definition of waste → waste is very broadly defined, but how broad?
- ✓ Waste offences: → Environmental harm and illegal landfilling, illegal treatment and other offences
- ✓ Waste contaminated soil → Disposal, treatment permit or exempt waste
- ✓ Waste licensing requirements under schedule 1 EP Act and Regulations
- ✓ Waste levies and their application including special rate for 'old' Contaminated soil
- ✓ Transport conditions for wastes
- ✓ Landfilling criteria and recycling for both on and off-site activities
- ✓ Management of asbestos waste
- ✓ Use of End of Waste Codes → where they apply and what to do to implement them
- ✓ Waste Classification of non-trackable wastes
- ✓ Regulated Waste classification:
  - Using the desktop approach
  - Undertaking analysis to change category
- ✓ Hazardous waste → typical landfill acceptance criteria
- ✓ Immobilisation → what is it and where to use it and approval processes
- ✓ Waste tracking → waste codes, intra state and interstate

#### Details at a glance

Date: Any time to access Webinar  
Time: 3 x 1 hour sessions as described next page  
Venue: Webinar using Crowdcast

# Waste Webinar QLD Program

**Session 1**

**Waste Laws and Introducing Waste Classification**

- ✓ Introduction – Waste and contaminated sites
- ✓ Overview of the **waste laws** covering, waste definition, waste licensing, waste transport laws
- ✓ Illegal waste liabilities: dumping, land pollution, transporters and facilities
- ✓ Introduction to waste classification → Regulated & Non-regulated wastes
- ✓ Permits for disposal and treatment of contaminated soils
- ✓ EP Act, Regulation and Waste Reduction and Recycling Act (WRRRA) affecting contaminated sites
- ✓ ERA triggers for on-site management of contaminated soil, landfill, treatment etc.
- ✓ General conditions for transporting and storing wastes
- ✓ Waste levy and how it operates across Queensland

**Session 2**

**End of Waste Codes and Other Wastes**

- ✓ Special treatment of contaminated soils: regulated and contaminated soil waste levy charges
- ✓ End of Waste Codes (EoW): coverage, use, documentation etc.
- ✓ Usefulness of EoWs for treated contaminated soils
- ✓ Applying for specific EoWs not covered by the published list and fees
- ✓ Overview on asbestos waste and problems with recycling soils and stockpiles
- ✓ Sampling, testing, storing, application and other requirements
- ✓ Tips on when and how to apply for **specific EoW applications**
- ✓ Managing asbestos wastes

**Session 3**

**Regulated, Hazardous Wastes and Immobilisation**

- ✓ Classification of Regulated wastes under Sch9 EP Regulation → how it works
  - Desktop or default approach
  - Sampling and testing approach
  - Exempt wastes including ground waters
- ✓ Treatment of PFAS wastes
- ✓ Typical landfill acceptance criteria based on concentrations and TCLPs
- ✓ Liquid wastes and triggers for regulated wastes
- ✓ **Immobilisation**, where can it be used?

**Transportation and Tracking of Trackable Wastes**

- ✓ Examine the **tracking system** for Queensland
- ✓ Waste tracking data and on-line waste tracking
- ✓ Interstate tracking

PRICE (incl GST)	VENUE / WEBINAR	DATES AND TIME
Webinar ASBG/ ACLCA member <b>\$100</b> Non-Member <b>\$120</b> Notes, will be emailed to participants on completion and a certificate	<b>At Your Computer</b> A Website link will be issued with password: Required computer with internet download speed of > 5 Mbs	All sessions Recorded for later viewing at any time
