

NSW Waste Workshop: Webinar

A focus on contaminated soils

Brought to you by

Supported by

Australian Contaminated
Land Consultants Association

27, 28 & 29 APRIL 2022 – WEBINAR

3 x 1.1 HOUR SESSIONS

This workshop set is designed to help contaminated site and environmental professionals come up to speed on the complex area of waste classification, resource recovery, and its management. NSW environmental laws establish a complex set of legal controls on the generation, transport, beneficial re-use, recycling, treatment and disposal of wastes. There are many pitfalls and administrative processes that abound in the management of wastes in NSW. The workshop is run over three consecutive days [3 x 1 hour sessions] plus question time will cover the following areas:

- ✓ Definition of waste → waste is very broadly defined, but how broad?
- ✓ Illegal waste activities: → transport, landfilling and pollution of land offences
- ✓ Overview of the POEO (Waste) Regulation 2014
- ✓ Waste licensing requirements under schedule 1 POEO Act
- ✓ Using SEPP 55 for permission to shift contaminated soils
- ✓ Transport conditions for bulk waste
- ✓ EPA's On-site off site rule, when it applies and when not
- ✓ Asbestos → Measurement, classification and tracking of asbestos wastes
- ✓ Use of Resource Recovery Exemptions and Orders → key RROEs to use and recent changes
- ✓ Brief overview on sampling requirements to achieve EPA acceptable 95%UCL
- ✓ Hazardous Waste classification:
 - Covering hazardous, restricted, trackable, liquid
 - Chemical assessment → use of CT, SCC and TCLP tests and where to apply them
 - Immobilisation → Applications for specific Immobilisation Contaminant Approval processes
- ✓ PFAS contaminated waste criteria and management options
- ✓ Waste tracking → waste codes, intra state and interstate and the EPA's on-line system including new requirements for asbestos, tyres and interstate waste movements

Details at a glance

Date: 27, 28 & 29 April 2022
Time: 11:55 am to 1:05 pm each day
Venue: Webinar using Crowdcast

PROGRAM

Session 1	<p><u>Waste Laws and Introducing Waste Classification</u></p> <ul style="list-style-type: none"> ✓ Introduction – Waste and contaminated sites ✓ Overview of the waste laws covering, waste definition, waste licensing, waste transport laws ✓ Illegal waste liabilities: dumping, land pollution, transporters and facilities ✓ Using SEPP 55 for managing contaminated soils ✓ Disposal or cap and contain the waste? ✓ Overview of the POEO (Waste) Regulation 2014 affecting contaminated sites ✓ General conditions for transporting and storing wastes ✓ Introduction to classification of waste under the Waste Guidelines the 6 steps ✓ Classification of putrescible and non-putrescible wastes for landfill disposal
Session 2	<p><u>Resource Recovery Exemptions and Other Wastes</u></p> <ul style="list-style-type: none"> ✓ The On-site / Off-site rule for wastes ✓ The new Resource Recovery Exemption (RREs) and Orders (RROs): A focus on VENM and ENM ✓ Overview on asbestos waste and problems with recycling soils and stockpiles ✓ Sampling, testing, storing, application and other requirements ✓ Tips on when and how to apply for specific RRE applications ✓ Sampling criteria to achieve EPA acceptable 95%UCL ✓ Case studies and traps for poor classification, testing, assessment and destination choices
Session 3	<p><u>Hazardous Wastes, Trackable wastes and Immobilisation</u></p> <ul style="list-style-type: none"> ✓ Classification of trackable wastes under the Waste Regulation → liquid and solid ✓ Hazardous wastes and acid sulfate soils and their management and classification covering: <ul style="list-style-type: none"> ○ TCLP, CT tests; when to use it and what to test for and how the test works ○ What occurs if you exceed the SCC test thresholds? ✓ PFAS contaminated soils and their management options ✓ Immobilisation, its use and the new immobilisation Certifications and Approvals <p><u>Transportation and Tracking of Trackable Wastes</u></p> <ul style="list-style-type: none"> ✓ Examine the tracking system for trackable waste ✓ Waste tracking data and on-line waste tracking ✓ Interstate tracking

PRICE (incl GST)	WEBINAR	DATES AND TIME
ASBG/ACLA member \$120 Non-Member \$145 Notes, will be emailed to participants on completion and a certificate	A Website link will be issued with password Require computer with internet download speed of > 5 Mbs	27, 28 & 29 April 2022 Start 11:55 am – Close 1:05 pm
